

GLOBAL SECURE

ACCREDITATION

GLOBAL SECURE PARTNER PROGRAM

OUR PARTNER RELATIONSHIPS PROVIDE US WITH BROAD GLOBAL REACH AND SECURITY EXPERTISE TO ENSURE THAT WE MEET THE NEEDS OF CURRENT AND EMERGING HOTEL SECURITY REQUIREMENTS.

Global Secure partners with industry-leading security organisations that deliver services, solutions and technology compatible with the Global Secure Accreditation global security standard for hotels.

GSA provides an independent hotel security assessment process, established and operated by highly experienced security experts and created in partnership with SFJ Awards (SFJ) a UK Government (Ofqual) approved standards awarding organisation. SFJ provides the additional assurance and independence to the assessment and accreditation process. Achieving accreditation rewards hotels who have invested in good security and provides that confidence to the traveller and travel managers and buyers.

Regional Partners offer 'Global Secure Accreditation' in the region that they cover and package, customize and deliver Global Secure hotel assessments, accreditation and security solutions that meet the security needs of the hotels and their guest and clients. Regional Partners are accredited by SFJ Awards (a formal accreditation and standards body) and have developed security capabilities and solutions to meet the needs of customers in the regional hotel market. They provide solutions to enable hotels to secure greater benefits from their investment in security and enable business and leisure travellers and corporate travel managers to make more informed choices about their safety.

Solution Partners enhance the Global Secure offering that allows Global Secure to provide a more comprehensive security offering to their global customers and Partners. These Partners cross over multiple service platforms, technologies and offerings to enhance the one stop shop security solutions being provided to hotels globally. These Partners also have strong connections into the hotel industry.

Reseller Partners act as an intermediary between Global Secure and hotels globally, corporates, travel management companies and hotel industry groups. They are security or hotel connected organisations that are able to enhance their customer relationships by providing access to Global Secure solutions through various purchasing and contracting vehicles. These Partners have strong relationships with their hotel customers and the Industry and are always looking to bring the latest solutions and innovations to their customers.
